Azura of Verona's two memory care households offer personalized, purpose-filled Alzheimer's and dementia care focused on retaining abilities and enhancing quality of life. Where many senior living homes feel more like medical centers or private hotels, Azura's Memory Care and Assisted Living communities are intentionally designed using our Household Model — ensuring that every resident has a space where they feel safe, familiar, comfortable, and engaged in a life filled with personalized moments of joy.

Each resident's private suite can be customized with their personal items, making it feel like home. Additionally, utilities, Wi-Fi, bedding, linens, housekeeping, and laundry services are included. Their care will be individually tailored to meet their specific needs, delivered by our outstanding 24-hour care team trained in evidence-based, scientifically validated dementia care practices. This approach aligns with our exclusive MOSAIC philosophy, which focuses on engagement and personalized care. Each household has a Quality of Life team member to enhance engagement through holistic therapies of activity, creativity, reminiscence, sensory, cognitive, and more.

Other highlights include personalized management of medications and expressions with a high caregiver to resident ratio, healthy food options including nutritious snacks and dietician-approved meals. We offer customized assistance with grooming, bathing, dressing, incontinence, can use mechanical lifts. We are a pet-friendly atmosphere for those who enjoy animals.

Residents will experience a warm, loving home designed to enhance quality of life and independence, while ensuring enhanced security through the use of alarmed doors, R-Care Emergency Response System, and on-site/on-call nurse oversight so that you can sleep at night knowing your loved one is safe.
